# Workshop « Ancestor's Charm »

Our Ancestors had the whole system of interaction with the world surrounding them, his laws and manifestations. Charms were one of languages of this interaction.

We can offer more than 150 products representing molds from jewellery (sometimes - reconstruction), which were carried by slavs in the 6-14th centuries. Ancient products of balts, finno-ugrian and old german tribes of the 3-14th centuries are separately presented.

We take the charm which has lain in the earth hundreds of years, we take a mold (with all smallest details inherent in the source code) and we cast the copy. Now everyone can not only become the owner of a mold from an ancient find, but also to show to people around creation, directly belonging to primordial beliefs.

*Well made root deep in the ground can grow healthful and strong tree. This tree's roots are our Gods and Ancestors, the trunk is a tradition, native faith or otherwise it's a bridge connecting glorious Ancestors and descendants. This tree's branches are glorious folks from fathers to sons renewed and who stretch to the sun. While this tree is strong, while its roots hold the ground so its crown is wide and fertile though it's made of small leaves. And these leaves are people, we and you are. That's why we have to take care to preserve the heritage of our Ancestors for the glory of our land.*
